"The fish commission," said the professor, "was first organized for the purpose of inquiring into the decrease of fishes along the coast of New England. Thomas Morton says that in 1632 the fish in the Merrimsc river at the going out of the tide so choked the river that it seemed as if a person night walk across it dry shod. This was the case with most of the rivers and bays along the coast at that early period. There hat been of late years a rapid decrease, until at length the fi heries were crippled, the supply was curtailed, and investigation demanded. There were two parties speedily raised—those who contended that the stop to buckets, in which the eggs are placed." peedily raised—those who contended that the lecrease was due to fishing with nets and contids, and those who held that it was due to butter causes. We will finish the work with shad inthe Susquehannah river about the middle of June. Then we will begin with another kind of fish that will be in season later and gorges itself again. "Oh, yes! The great argument we can use to the propriety of the measures now undertaken is this. We may not be in urgent need of this re-source just now. But our population is rapidly creasing. We have fifty-one millions now, a it will not be long before we have one hundred millions. At present we have a large acreage de voted to grazing and pasturage. The quantity o animal food must increase. But with an increase ing population a large per centage of ground that furnishes food for cattle will necessarily be used for roots and grain for man. Then we are exporting grain and meat largely to the old country and this export will lucrease rapidly We begin now with the natural fist culture; we restore the origina culture; we restore the origins stock in the rivers, we increase the supply in the sea, and thus add i amensely to the list of source

A Pastor Made Happy.

I have been greatly troubled with my kidneys and liver over twenty years, and during that entire time I was never free from pain. My medical bills were enormous, and I visited both the Hot and White Springs, noted for the curative qualities of the water. I am happy to say I am now a well man, and entirely as the result of Warner's Safe Kidney and Liver Cure. With such giorious results I am only too glad to testify regarding the remedy which has made me so happy. (REV) P. F. HARKLEK.
